by Allan Block

AB Collection - AB Ashlar  
Blend Patterned Walls

## Why Allan Block?

With the wide variety of options on the market today, Allan Block's built-in features, benefits and superior services make our products the most efficient and reliable products available.

All Allan Block products have three major things in common:

- \* Hollow Cores – this hollow-core design provides many benefits over other solid systems.
  - \* Superior Drainage
  - \* Easier Handling, Faster Installation
  - \* Lower Labor Costs
  - \* Block-to-block interlock created by the wall rock within the blocks
  - \* Better resistance to freeze-thaw cycles
- \* Mortarless Construction – building with an interlocking dry-stacked material provides flexible, superior performance over more rigid construction techniques. No concrete footings, mortar or grout are needed, saving both time and money.
- \* Built-in Engineering - with the built-in interlock, every Allan Block is firmly locked in place by the patented lip and notch configuration. No pins, no mortar, no fancy connectors.

**Superior Service – period.** We at Allan Block put a lot of time into training our people to enable them to give the best possible service. Whether you are working with a dedicated AB Dealer, an AB Certified Contractor, a local experienced Engineer or one of the many trained Allan Block Representatives out in your market, you can feel confident that they are ready to provide you with the “Always Better” AB experience.

A wooden pergola with a flat roof made of horizontal beams and square pillars. The pillars are set on a base of stacked stone blocks. A striped armchair is positioned under the pergola. The surrounding area is a garden with various plants, including a large bush of white flowers and a fern. The ground is covered with grass and mulch. The overall scene is a peaceful outdoor space.

*Create a secluded space  
in your environment.*

[allanblock.com](http://allanblock.com)

At Allan Block, we like to say that AB stands for “Always Better”. What that means is that our team is always striving to be the best. From installation instructions and project ideas, to estimating tools and engineering software, Allan Block has a large library of resources at [allanblock.com](http://allanblock.com) to help plan, design and build with Allan Block products.

We pride ourselves on service and knowledge you can count on. Our staff of seasoned AB Representatives, Dealers and Contractors are trained and ready to help you with any of your project needs.

So whether you are a homeowner working on a raised planter or an engineer designing sound barriers around a highway, we want you to know that Allan Block provides not only style and durability but an “Always Better” experience.
