*Outdoor living has  
never felt this carefree!*

Welcome to C.R. Plastic Products. For more than 20 years we've been designing and crafting the very best recycled outdoor casual furniture in the business. Our advanced molded extrusion process gives our plastic lumber a continuous wood grain finish enhancing your level of comfort in every piece of furniture we manufacture. As an environmentally friendly company, we are always looking at ways to enhance your comfort while protecting the environment.

Generation Line

ST. TROPEZ

We use only the best 316SS stainless steel screw hardware to keep your furniture sturdy and tight. Around chlorinated, salt or fresh water, you can be assured that your chairs, tables and accessories will stand the test of time without corrosion or rust.

*Relaxing never  
seemed so peaceful!*

All of our products are made with an automotive-grade UV stabilizer, guaranteeing that our products maintain their beautiful bright colours for years. Our contemporary line of furniture maintains its' colour stability, removing the need to ever paint or stain.

**ST. TROPEZ**

*Making the environment  
our first priority!*

All of our products are made from 100% recycled plastic which requires 80% less energy to produce than virgin plastic. The care we take in recycling keeps the equivalent of over 70 million milk jugs from entering the landfill and millions of tons of harmful CO2 gases from entering the environment!

ST. TROPEZ

*Relaxing has never  
felt this responsible!*

When you purchase our products you are doing your part to contribute toward a healthy environment. Lakeside, oceanside, poolside or even rooftop patio, our goal is to make the world a more beautiful place for future generations!
